Press Release

Apr 10, 2006

DANVILLE, CA (April 10, 2006) GolfTraxx (<http://golftraxx.com>) has formed a partnership with PDAzip (<http://pdazip.com>) to provide golf course scorecard hole-by-hole data for 20,000 courses in US and Canada as part of the official launch of its voice-powered, 100% open standards Golf GPS solution for TREO 650, Palm One, Palm Life Drive, and Pocket PC with built-in PDA Voice Response.

GolfTraxx state-of-the art golf GPS solution features ***integrated 2-way voice communication*** between player and device. GolfTraxx has also incorporated the TomTom (<http://tomtom.com>) SiRF STAR III wireless bluetooth™ GPS receiver into this fully-integrated Golf GPS solution. Upon command, GolfTraxx accurately calculates golf shot distances ***anywhere in the world*** where the GPS can capture coordinates. ***A professionally recorded female voice tells you the distances to multiple targets on every hole...*** including front, center and back of each green. GolfTraxx can also capture the club you used for each shot, as well as the lie with voice-driven commands. After the round, GolfTraxx exports all shot data to your desktop computer.

"This product is the result of the collective efforts of some ***extraordinarily talented individuals***," said Frank DeBenedetti, founder of GolfTraxx.

"GolfTraxx enables golf enthusiasts to measure distances quickly and accurately from anywhere on the planet that the GPS receives a signal. We are very excited about the partnership with pdazip.com as it enables our customers to have easy access to the hole-by-hole scorecard data for courses they are playing without having to pay for each course separately."

GolfTraxx offers ***FREE downloads of trial versions*** of the software for Palm, TREO 650, and Pocket PC on their website. GolfTraxx offers ***FREE downloads*** of over 20,000 course scorecards that have been added to their database. GPS coordinates will also be provided for any courses uploaded to their website for ***FREE*** to all registered GolfTraxx users. GolfTraxx' competitors require their customers to ***purchase each course separately***. GolfTraxx offers various bundled solutions between \$149.95-\$199.95. If you already have a bluetooth GPS receiver, GolfTraxx can be purchased stand-alone for \$29.00.

About GolfTraxx

GolfTraxx.com Founded in 2005, GolfTraxx is headquartered in Danville, California. For additional information about GolfTraxx, please visit <http://golftraxx.com>. The flagship product, GolfTraxx, is the brainchild of founder, Frank DeBenedetti. DeBenedetti is an avid golfer and computer technologist who earlier competed in high school, college, local, regional, and national golf competitions. and who now consults with Fortune 100 companies in the San Francisco Bay area. GolfTraxx is a registered trademark of GolfTraxx, Inc., in the USA and/or other countries. All other brand names, product names, or trademarks belong to their respective holders.

About pdazip.com

pdazip.com provides locale-specific information such as current weather or nearby business locations for millions of business locations in every zip code across the United States. Site visitors can search by zip code, GPS coordinates, city/state, county/state, or FIPS code. One of the key differentiators of pdazip.com is that the ***data is provided in real-time by the businesses themselves***. This provides pdazip.com with a core advantage versus other sites that provide similar information from a database created "once-upon-a-time." Site visitors can submit their current GPS coordinates to the pdazip.com website, then receive locale-specific information based on the GPD coordinates last transferred. pdazip.com also offers a downloadable application for Palm, TREO, and Palm Life Drive that allows the GPS coordinates captured by the TomTom GPS receiver to be submitted in a single click.

About TomTom

TomTom NV is a leading provider of personal navigation products and services. TomTom's products are developed with an emphasis on innovation, quality, ease of use and value. TomTom's products include all-in-one navigation devices which enable customers to navigate right out of the box; these are the award-winning TomTom GO family, the TomTom ONE and the TomTom RIDER.
